

CREATING A COMMUNITY RESOURCE THROUGH THE ENGINE ROOM

At Impact North West Schools, **The Engine Room** is more than a therapy suite - it represents a commitment to strengthening the wider SEND community across the Wirral.

The intention is not simply to provide specialist equipment, but to create a shared, accessible professional space that supports collaboration, early intervention and improved outcomes for children and young people.

By opening **The Engine Room** for private professional hire we aim to:

- Support local Occupational Therapists & Physiotherapists
- Reduce waiting time barriers by increasing access to specialist environments
- Encourage multi-disciplinary collaboration
- Provide high-quality therapeutic space within the local area

"This is about making provision local, connected and community-driven"

- JAYNE JONES, HEADTEACHER

A dynamic, regulation-focused space designed to support therapeutic outcomes in a safe and engaging environment

We are delighted to offer private bookings for professional use:

- Weekdays after 2:00pm
- Evenings
- Weekends

Available to:

- Occupational Therapists
- Physiotherapists
- Other qualified professionals working therapeutically with children

REQUIREMENTS FOR HIRE:

Please note: in order to hire *The Engine Room*, you will need to provide evidence of Enhanced DBS for your staff, and confirm that you hold Public Liability Insurance

"The Engine Room provides a safe, dynamic and engaging environment where children can develop body awareness, core strength, coordination and self-regulation skills under professional guidance."

- JAYNE JONES, HEADTEACHER

WHAT'S INSIDE THE ENGINE ROOM?

The suite contains a wide range of specialist proprioceptive and sensory integration equipment, including:

- Climbing / bouldering wall
- Interactive energy wall
- Peanut therapy balls
- Ball pit
- Exercise bike
- Cuddle chairs
- Balance beams
- Punch bag
- Body socks
- Indoor therapy swings

Due to our recent expansion and rapid growth, we are delighted to position ourselves as more than a school - but as a central hub for SEND expertise on the Wirral. We are open to collaborating with organisations and individuals for:

- Hosting professional network events for SEND practitioners.
- Offering CPD linked to regulation, attachment & trauma-informed practice
- Facilitating parent workshops on sensory processing and regulation
- Partnering with local authorities to showcase inclusive practice
- Providing a base for collaborative assessment clinics
